

Problem Set 1: Errata

For students who have downloaded the Problem Set 1 posted before 19:50pm, Feb. 27, the following typos should be corrected:

1. In Question 4, the statement should be “Define the matrix created in question 3 as A, do the following exercise on A independently (not sequentially).”
2. In Question 7 step 6) the loop should be $i = 1:4$ and $j = 1:4$, instead of $i = 1:3$ and $j = 1:3$.
